

RICE MIXER MACHINE (TSM-S2)

Instruction Manual

To use this machine safely and correctly,
please make sure to read this instruction
manual carefully before use.

Model/type	RICE MIXER MACHINE / TSM-S2
dimension	W570×D400×H450(mm)
Power supply	AC100V - 240V 50-60Hz
consumption	90W
Electric current	AC100~120V 0.9A AC220~240V 0.5A
Main body weight	34kg

⦿For the sake of safety, read the following carefully and make sure to follow the instructions:

●This explains the degree of risk in the case of improper handling, classified into  WARNING and  CAUTION.

The symbols have the following meanings:

 Prohibit  Do not touch  Grounding  Follow the instructions

 Unplug  No disassembly

 Warning: Improper handling may result in death or severe injury.

<p>Do not pull the cord when unplugging the power supply plug.</p> <p>●It may break, causing a fire.</p> <p style="text-align: right;"> Prohibited</p>	<p>When you do not use the machine for a long time, make sure to unplug the power supply plug.</p> <p>●It may result in an electric shock, an electric leakage or a fire</p> <p style="text-align: right;"> Unplug</p>
<p>Do not damage the power supply cord.</p> <p>●Twisting, putting something on it, or inserting something in it may break it, causing an electric shock or a fire.</p> <p style="text-align: right;"> Do not damage</p>	<p>Remove all the removable parts from the main body and clean them.</p> <p>●It may cause an injury or an accident.</p> <p style="text-align: right;"> Removal</p>
<p>Do not use a damaged cord or an outlet with a loose plug insert.</p> <p>●It may cause an electric shock, short circuit or fire.</p> <p style="text-align: right;"> Use prohibited</p>	<p>Do not splash water on the main body other than removable parts.</p> <p>●It may cause an electric shock, a short circuit or fire.</p> <p style="text-align: right;"> Prohibited</p>
<p>Avoid installing in any moist or water-logged locations.</p> <p>●It may cause an electric shock, short circuit or fire.</p> <p style="text-align: right;"> Installation prohibited</p>	<p>Do not insert your hand or fingers into the hopper while operating.</p> <p>●Your hand or fingers may become caught causing an injury or an accident.</p> <p style="text-align: right;"> Prohibited</p>
<p>Grounding</p> <p>●Otherwise, it may cause an electric shock or an accident.</p> <p style="text-align: right;"> Grounding</p>	<p>Do not insert your hand into each roller portion during operation.</p> <p>●Your hand or fingers may become caught, causing an injury or an accident.</p> <p style="text-align: right;"> Prohibited</p>

<p>Do not disassemble or alter the machine.</p> <p>●It may cause an electric shock, fire or an injury.</p> <p style="text-align: right;"> No disassembly</p>	<p>Do not insert your hand or fingers into any rotating portion during operation.</p> <p>●Your hand or fingers may become caught, causing an injury or an accident.</p> <p style="text-align: right;"> Prohibited</p>
<p>Insert the power supply plug firmly into the base after removing dust.</p> <p>●It may cause fire or a fire.</p> <p style="text-align: right;"> Remove dust</p>	<p>Remove or mount the parts after turning OFF the power supply.</p> <p>●Your hand or fingers may become caught, causing an injury or an accident.</p> <p style="text-align: right;"> Turn OFF the power supply</p>

Back Side

Power Cord

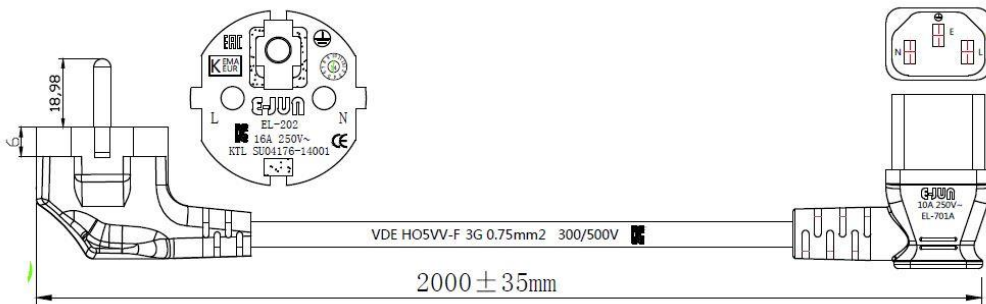

For safety reason, only the attached power cable can be applied for this product.
It may cause an electric shock, short circuit or fire.

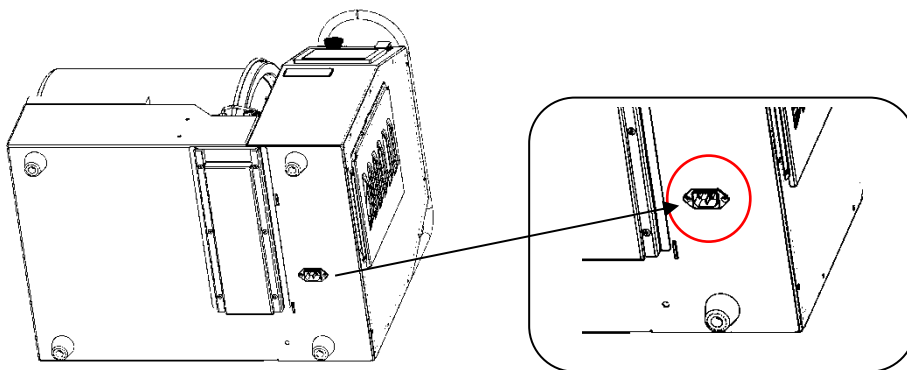

For 100-120V Use

For 220-240V Use

Power Cord Setting

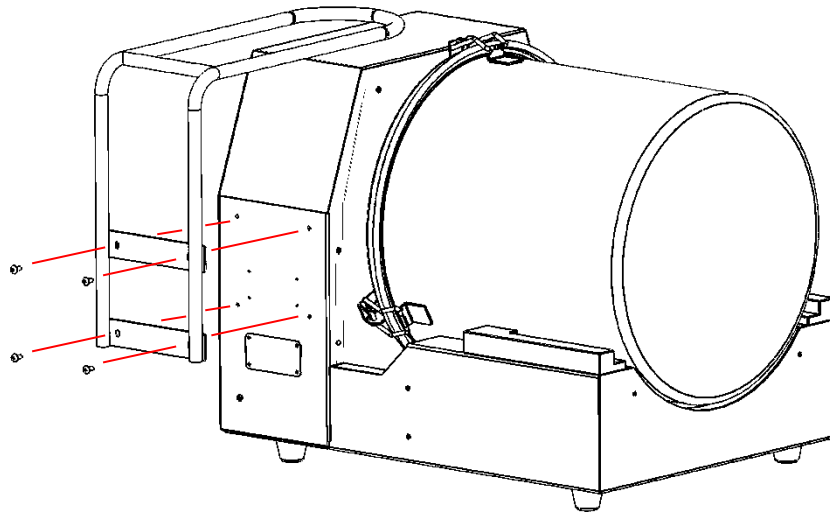

Set the power code to the inlet of main body.

For safety, set the power code to the inlet correctly and certainly.

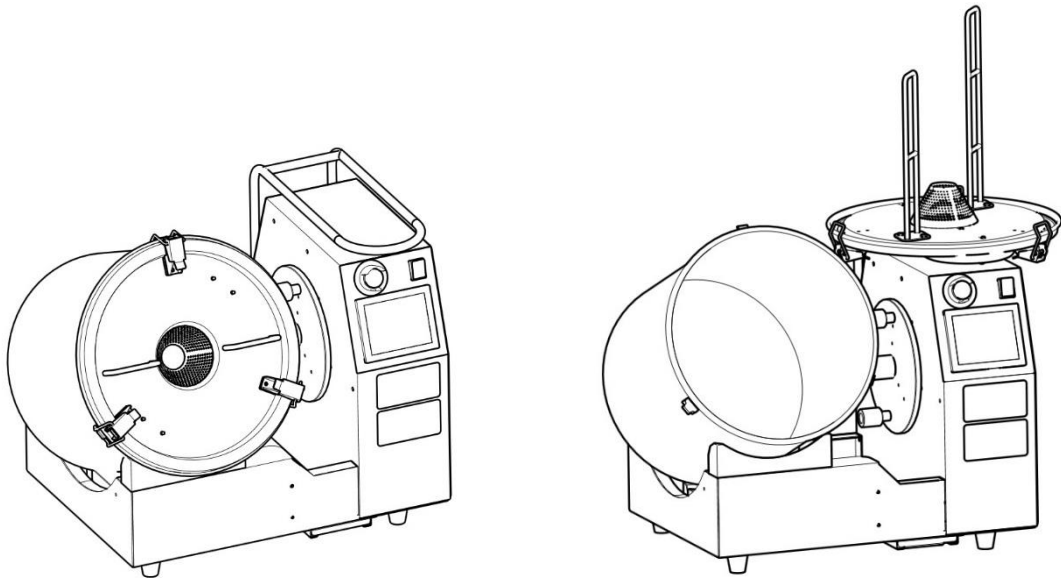

Do not touch the power code with wet hands.
It may cause the electric shock or electric troubles.

Tank Cover Rack Setting

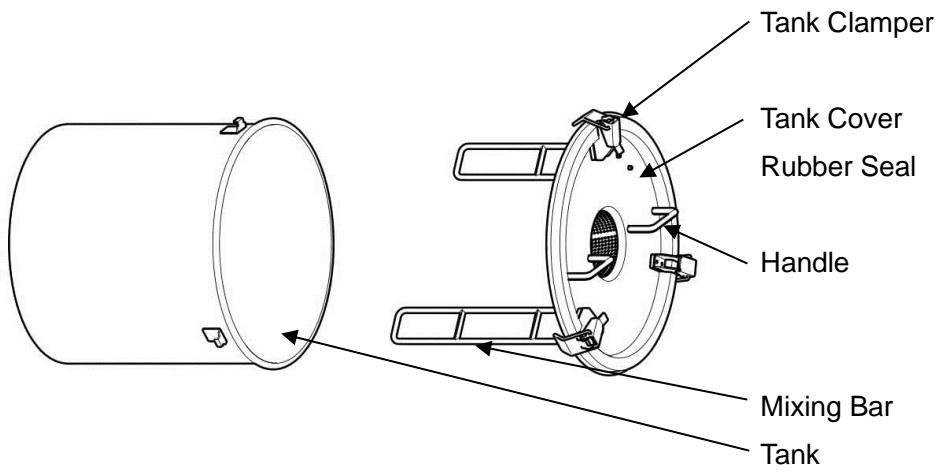

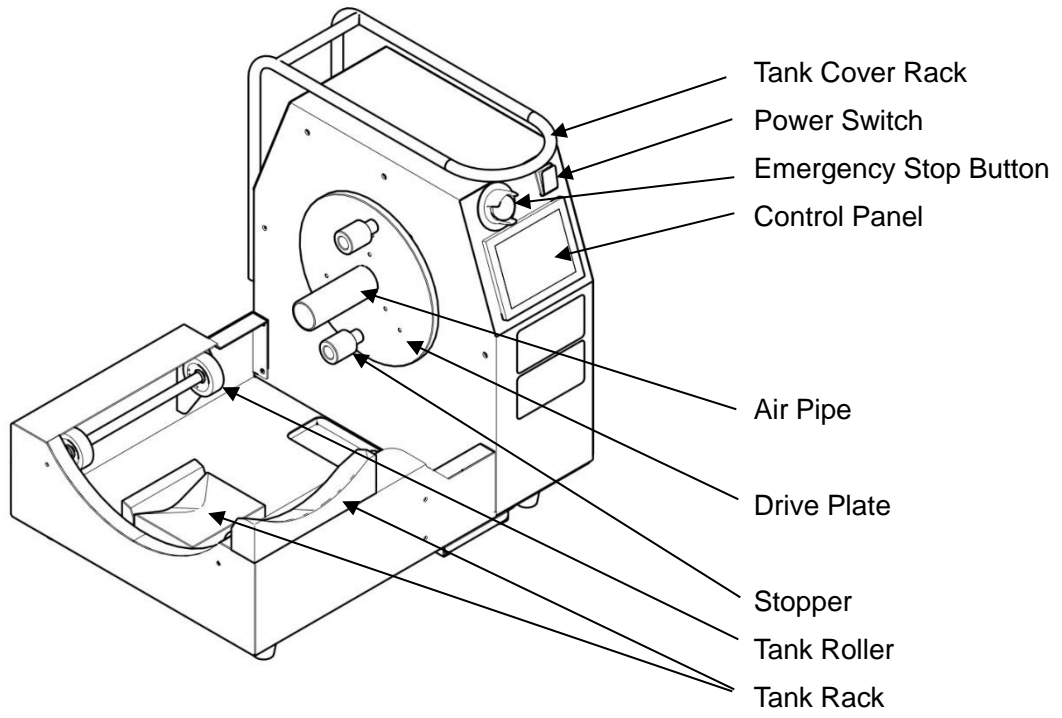

Tighten the screws for setting the Pipe Rack on the main body.

Pipe rack is only used for resting the tank cover.
It may cause an injury or an accident.

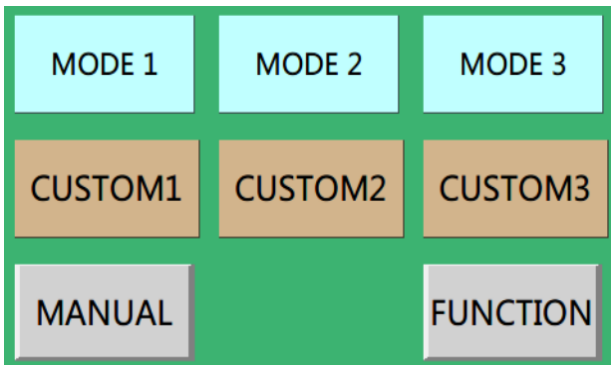

Main Parts Name

Control Panel - 1 / Drive

Do not insert your hand or fingers into any rotating portion during operation.
Your hand or fingers may become caught, causing an injury or an accident.

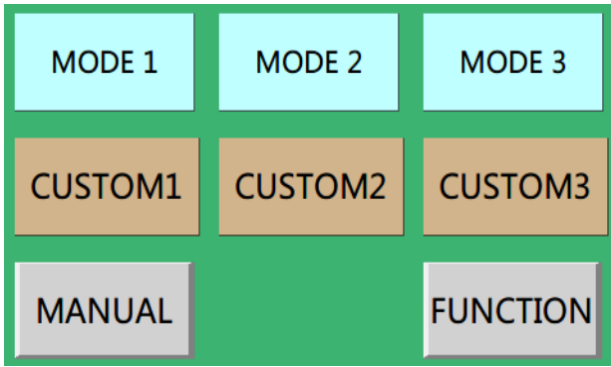

1. Select and press **MODE**
* refer the startup screen above photo.

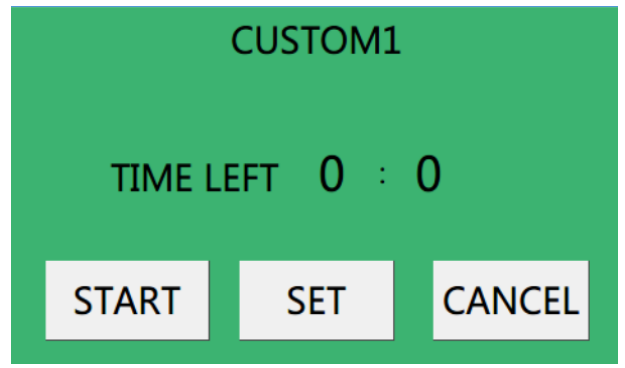

2. Press **START**
Tank runs and starts.
Press **CANCEL** if you want to stop and move back to startup screen.

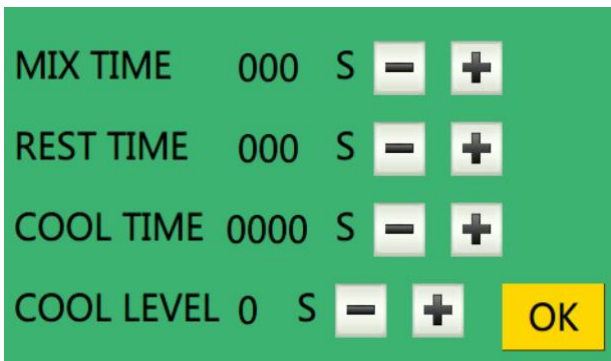

3. When the program is completed, the alarm rings.
Press **FINISH**
* Alarm will ring until you press **FINISH**.

1. Press **CUSTOM1** to change.

2. Press **SET**.

3. Change the time length by **-** **+**.

MIX TIME

Time for mixing rice and vinegar in the tank rotation.

REST TIME

Time for marinating vinegar in to rice in the tank.

COOL TIME

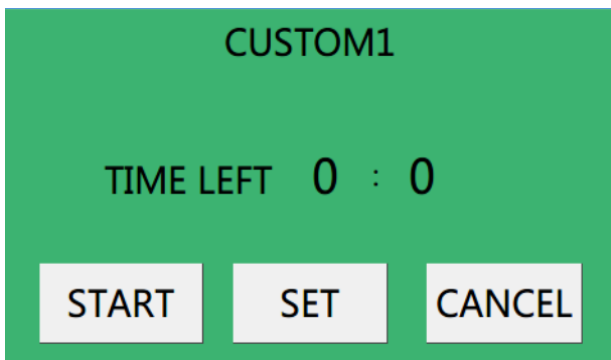

Time for cooling rice in the tank by wind.

COOL LEVEL

The strength of wind.

After you set your own program, press **OK**.

※The edited program will be memorized.

4. Press **START**

Tank runs and starts.

Press **CANCEL** if you want to stop and move back to startup screen.

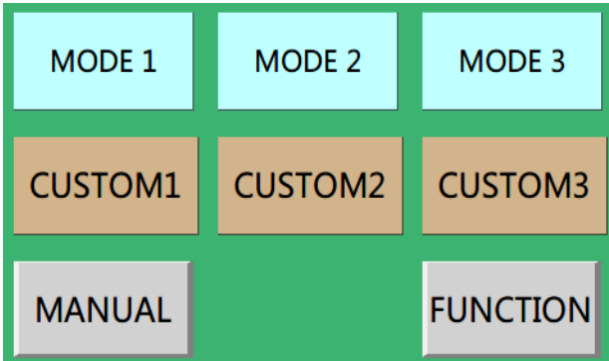

5. Press **PAUSE** If you want machine to pause.

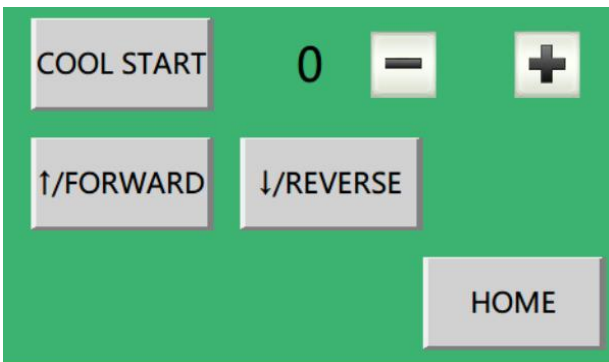

Control Panel - 34 / CHM Age Language

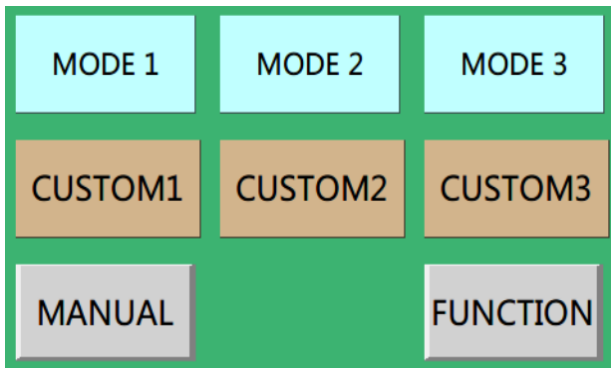

Do not insert your hand or fingers into any rotating portion during operation.
Your hand or fingers may become caught, causing an injury or an accident.

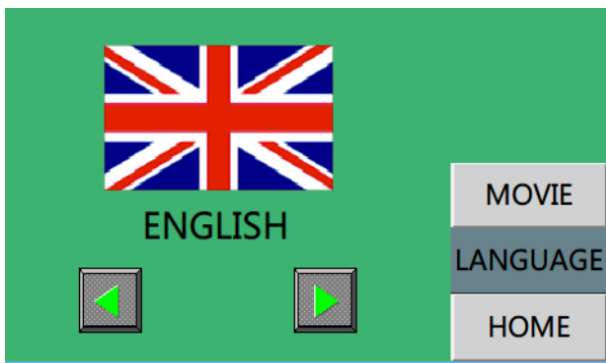

1. Press **MANUAL**

2. Pressing **COOL START**, cold wind comes out continuously.
Pressing **COOL START**, once cold wind stops.
Pressing **↑/FORWARD**, tank will rotate left while pressing this button.
Pressing **↓/REVERSE**, tank will rotate right while pressing this button.
Pressing **HOME**, you can move back to startup screen.

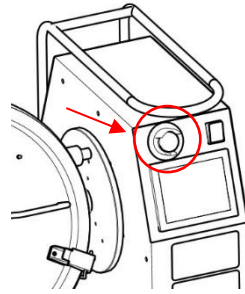

1. Pressing **FUNCTION**

2. Select the language by pressing **←** **→**

Press **HOME** to move back to startup screen.

Release the Emergency button

Emergency Stop Button is switched on.

Switch off the Emergency Stop Button when you start operating the machine.

Control Panel - 6 / Connect the earth

Earthing

Otherwise, it may cause an electric shock or an accident.

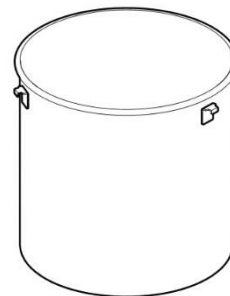

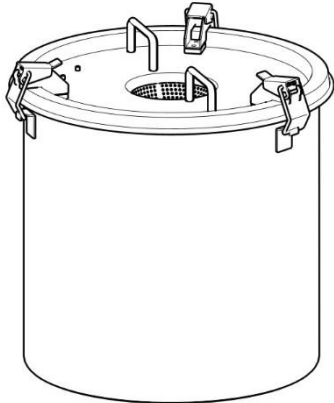

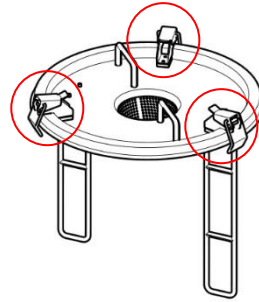

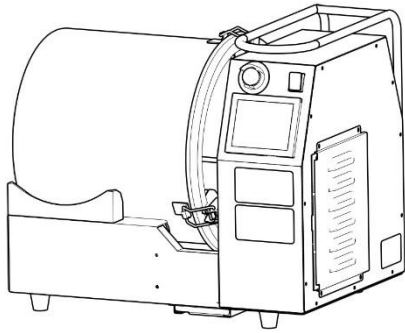

For safety
please connect the earth.

OK

The earth cable is not connected.

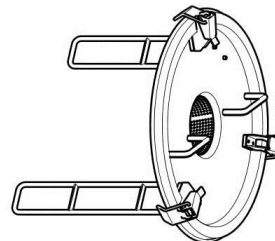

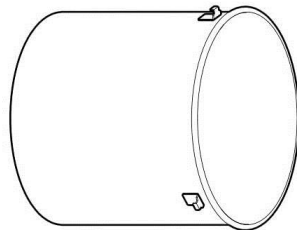

Please connect earth cable for the safety.

Press button to turn off this alert screen.

1. Remove the Tank from the body.

2. Unlock the 3 Tank Clampers and remove the Tank Cover.

Please use and wash by soft sponge when you wash Tank, Tank Cover and Mixing Bar.

Hold the parts firmly and remove the tank.
Parts may drop causing an Injury or an accident.

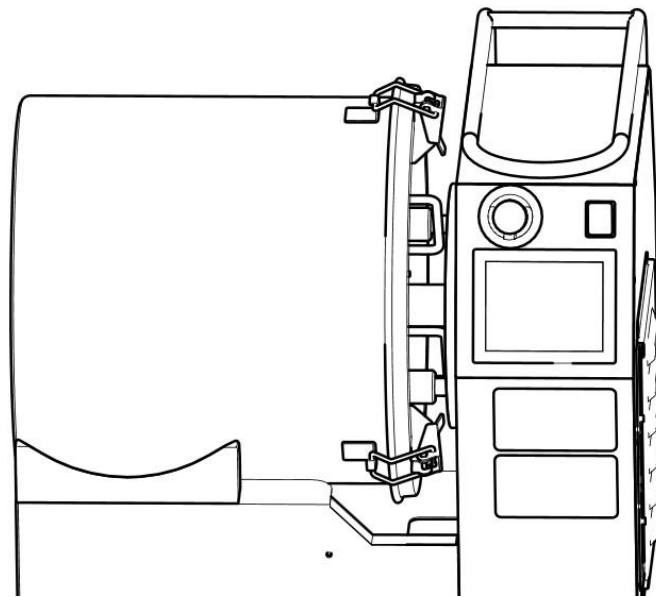

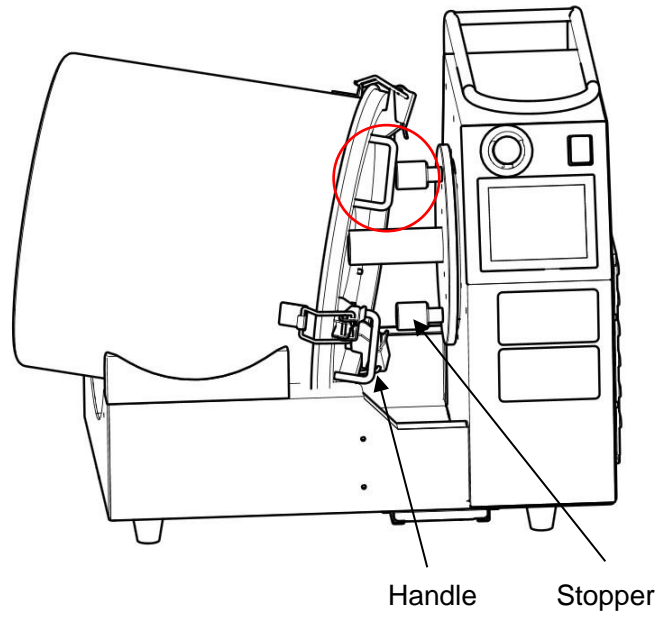

Do not splash water on the main body other than removable parts.
It may cause an electric shock,

Caution

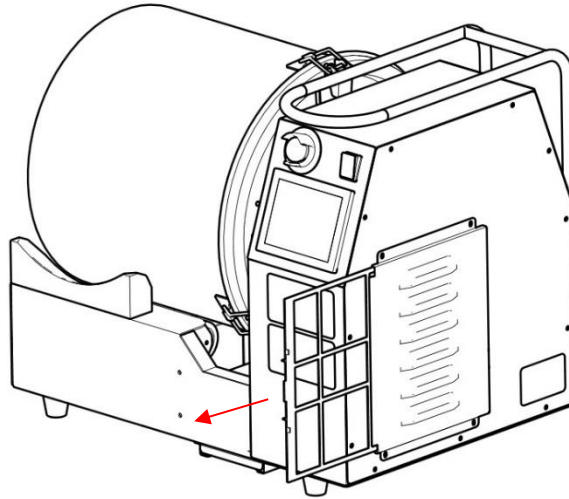

Do not wash the Teflon coated machine parts with a hard brush or hard sponge.
It may cause peeling of the Teflon coating.

Set the Tank back until the handle and stopper get touched.

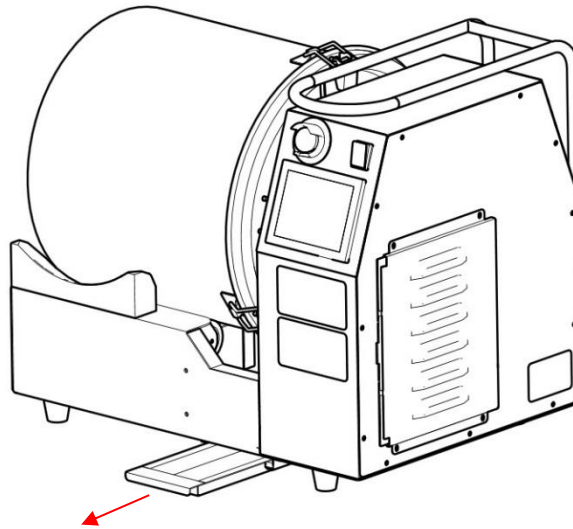

Do not insert your hand or fingers into any rotating portion during operation.
Your hand or fingers may become caught, causing an injury or an accident.

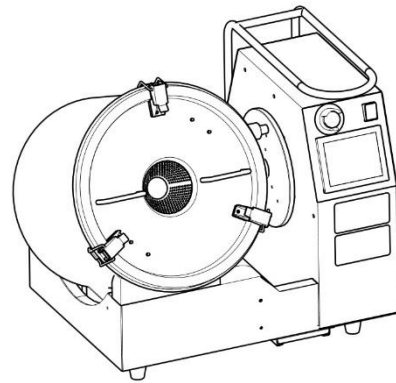

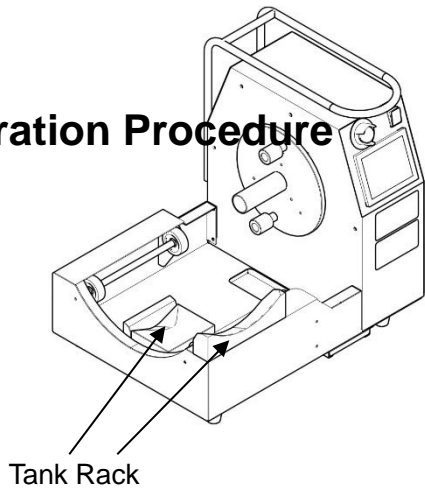

Remove the filter from main body.
Remove the filter and wash it once a week.

Dust tray

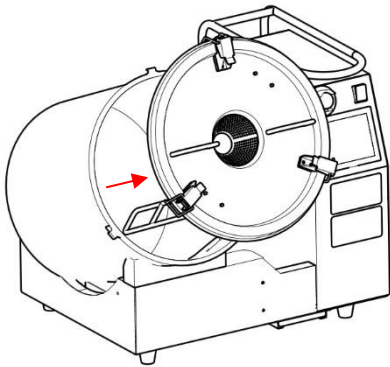

Remove the dust tray from main body.
Remove the dust tray and wash it every day.

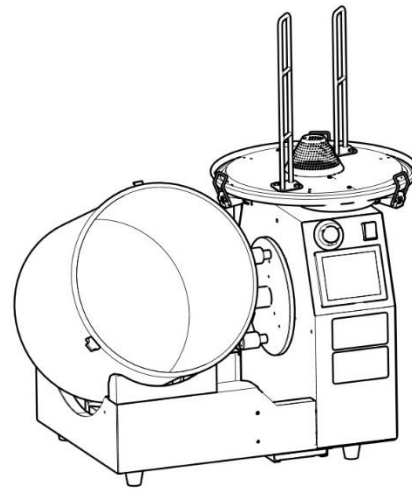

Operation Procedure

1. Set the tank on the tank rack.

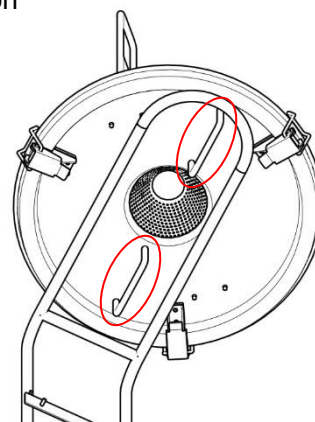

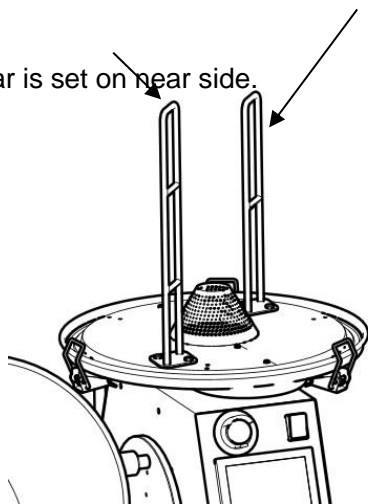

2. Remove the tank cover from the tank.

3. Set the tank cover on the tank cover rack.

Setting tank cover

Short tank bar is set on back,
Long tank bar is set on near side.

Set the tank cover handle inside of the tank cover rack.

Do not insert your hand or fingers into any rotating portion during operation.
Your hand or fingers may become caught, causing an injury or an accident.

1. Spray the inside of Tank, Tank Cover and Tank Bar.
2. Put the rice in the Tank.
*Capacity: Cooked Rice Max 6kg.
3. Put and spread the vinegar on the rice in the Tank.
4. Set the Tank Cover on the Tank.
5. Set the Tank on the main body.
6. Switch on **POWER SWITCH**
7. Select and Press **MODE** or **CUSTOM**
8. Press **START**
* when the program is completed, the alarm rings. Press **FINISH**
9. Press **FINISH**
* Alarm will ring until you press **FINISH**.
10. Remove the tank from the body and set on the tank rack.
11. Remove the tank cover from the tank and set on the tank cover rack.
12. Remove the sushi rice from the tank.
