

The mixer that inherits the traditional high level sushi chef's skill

Sushi Rice Mixer / TSM-S2

Small Type: Capacity 6kg

Three years of cooking rice,
five years of vinegar mixing and cooling at same time

That is how we say “ Skill of professional sushi chef”

TSM-S2 with precise and quick pro sushi chef skills

Mixing

Four mixing bars that are invented and designed for mixing sushi vinegar well, uniformly and quickly. The movement of tank rotation and bars is calculated and referenced by well trained professional sushi chef. 6.0 kg sushi rice can be ready in 3 minutes for mixing.

Cooling

High-power fan motor cools sushi rice down in the sphered-formed tank that is designed for removing moisture and heat of sushi rice immediately. The circulation of cool wind also removes the stickiness and acidity for delicious sushi rice making.

Resting

Maximum 6.0kg rice can be put in the sphered-formed tank. It is designed for scattering sushi rice in the tank by rice own weight, in order to make non soggy and non mushy rice.

PRODUCT QUALITY

IP67 WATERPROOFING TOUCH PANEL DISPLAY

It is waterproofed and blight and clear to visualize.

OVER HEAT PROTECTION

High performance with
overheat and overload
protection.

HIGH GRADE MOTOR

Japanese manufactured
motor with overheated
protection guarantees
durability and long life use.

SUS304

Main parts are made of
stainless steel 304 type for
making rust resistant and
strength of structure.

NON STICK COATING

The tank is coated with a
high quality Teflon-coated
Dupont product that does
not adhere to sushi rice.

STANDARDS FOR OVERSEAS

It corresponds to the
standard such as UL, CSA,
NSF and CE.

SPECIFICATIONS

Product Name	Sushi Rice Mixer
Type	TSM-S2
Body Dimensions	W570 x D400 x H451mm
Body Weight	47kg
Power Supply	AC100-120V 0.9A AC220-240V 0.5A
Power Consumption	90W

BENEFITS OF INTRODUCTION

Beginner chef

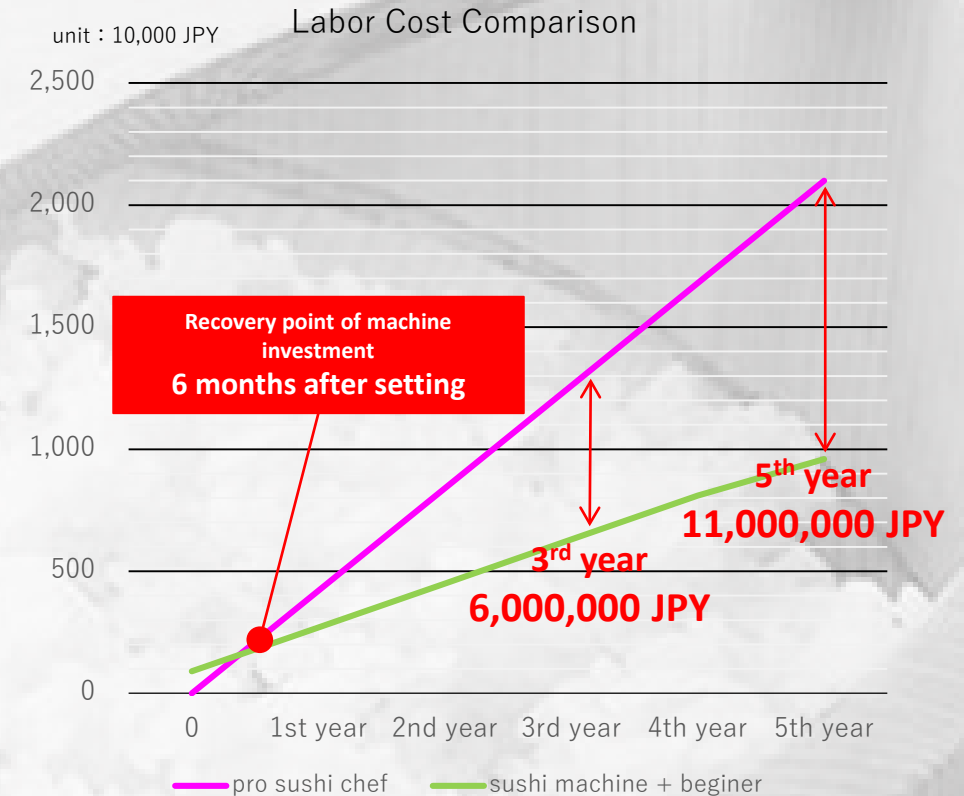

- DIFFICULT to make high quality sushi rice
- cannot evenly mixed vinegar and rice quickly
- Will smash sushi rice
- Cannot control the temperature of sushi rice
- Dust will go in sushi rice
- Different quality by different chef
- Make more food wastes
- Need time for training
- More experience needed
- Need to take some break
- More time, more labor cost
- May leave the kitchen
- Takes more than 30 minutes for 6kg

VS

TSM-S2

- EASY to make high quality sushi rice
- Can evenly mixed vinegar and rice quickly
- Will mix sushi rice evenly
- Can control the temperature of sushi rice always
- Will remove the dust by filter
- Always make same quality
- Won't make any wastes
- No need for training, only setting
- Can work with no experience
- No need to take rest
- Can save the cost and labor
- Never quit the job
- Takes 5 minutes for 6 kg

Machine (900,000 JPY) + beginner (150,000 JPY x 6 months) = 1,800,000 JPY
Pro sushi chef (350,000 JPY / month x 6 months) = 2,100,000 JPY

Based on the labor cost comparison between the sushi chef and the beginner staff, the investment cost for the machine can be recovered after about six months.
